PROFESSIONAL SUMMARY

Detail-oriented and results-driven Junior Full-Stack Developer with hands-on experience building scalable web applications, including E-commerce platforms and system management tools. Skilled in utilizing modern frontend and backend technologies while emphasizing clean code, performance optimization, and SEO best practices. Adept at collaborating in team environments and currently expanding skills into Mobile Application Development.

TECHNICAL SKILLS

Frontend: HTML5, CSS3, JavaScript, TypeScript, Vue.js, Inertia.js, Bootstrap, Tailwind CSS

Backend: PHP, Laravel, MySQL

Mobile: Flutter, Dart (Learning)

CS Fundamentals: Data Structures, Algorithms, OOP

Concepts & Methodologies: Scalability, Performance Optimization, SEO, Clean Code, System Architecture (Planning via Wireframing), Agile Teamwork

PROJECTS

E-Commerce Platform

[GitHub](#) | [Live Demo](#)

- Built a fully functional e-commerce system using Laravel, Vue.js, and Inertia.js.
- Optimized database queries (MySQL) to ensure high performance and scalability.
- Implemented clean code principles and structured the project for better SEO indexing.

Management System (System Project)

[GitHub](#) | [Live Demo](#)

- Developed a robust system tailored for business/management requirements, working closely with a development team.
- Planned the architecture and database schema using traditional wireframing (pen and paper) before coding to ensure logical flow.
- Collaborated via Git/GitHub for smooth team workflow and code reviews.

EDUCATION

Bachelor's Degree in Management Information Systems (MIS)

Expected Graduation: 2028

Higher Institute for Management and Information Systems

CURRENT FOCUS & SELF-LEARNING

Mobile Application Development: Currently learning and expanding skillset to build cross-platform mobile applications.
